

TESTIMONIAL 1

We started using the services of P A Hull and Co in 1984 and believe that we were one of their first clients. Since that date, we have always found that the quality of their advice has been excellent and the relationship between our staff and those at P A Hull & Co is outstanding.

I rely heavily on their advice for financial matters both for our family group of companies and on a personal level. , I like to use P A Hull & Co as a sounding board for any new projects and general financial advice that we may need.
